TC2026 Web Applications Development
Lab #5

For this assignment, your task is to develop a webpage identical to the one shown on the previous image. Make sure you use best practices to receive all possible credits. You are not allowed to use any framework.

- Make sure you write your name and student ID at the top of any document you submit.

- No assets are provided. Please use similar images, colors and fonts to get a similar look and feel.
- The original layout and theme (comic, magazine) should be preserved.
- Links are not required to be functional.
- You should use media queries to change the font size and background color at 481 pixels.
- You should use Flexbox for all elements (except header and footer).
- The layout change (from Desktop to Mobile) occurs at 481 pixels.
